Basic hands

MPSZF notation and flower tiles

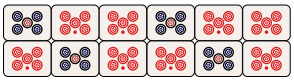

Special tiles, gaps, rotations, and stacks

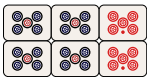

Red-five edge stack markers:

Red fives and `aka`

Red fives are enabled by default:

Local `aka=0` removes red fives while keeping the same notation:

A compact key-value optional argument is also supported:

Global `aka` can be changed with setup:

Aka mode `aka=2` adds one more red five pin to concealed-kong shorthand:

Tile-back colour

Inline back tile colour argument `[height][scale][color]`:

Inline `none` restores the embedded back artwork for one call only:

The global package colour is still active after inline overrides:

The global `color` key:

Full local key-value form:

Discard rivers

Discard river with a sideways riichi tile:

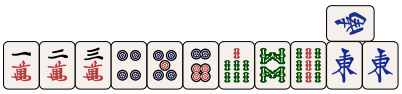

Discard river with local colour and aka:

Overlay notes and drawn tiles

Score sticks

Automatic point shorthand:

Manual key-value form:

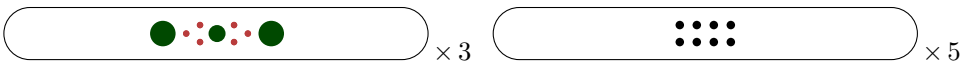

Manual compact count form, in `10k,5k,1k,100` order:

Local stick options:
